

WaterUps[®] Square Planter

The WaterUps Square Planter provides an attractive, water-efficient pot plant solution for balconies, courtyards, entrances and other spots in the garden to grow a range of edible, ornamental and flowering plants and give you months of vibrant colour.

The baby of our raised planter box range, this inbuilt wicking innovation means gardeners don't have to water their pot plants as regularly, nor use or waste as much water. The result: healthier plants as well as a superior solution for growing small trees in pots.

World-leading Wicking Technology

The WaterUps Square Planter is an attractive modular system that can be used as a stand-alone planter or as part of a larger display. This planter uses the same components as our other wicking beds and allows you to enjoy the benefits of a fully-fledged WaterUps wicking system. Water is stored in the base of the planter and wicked to the soil above, closer to the roots and more conducive to thriving plants.

Water Savings – Healthier Plants

The WaterUps Square Planter provides all the benefits of our innovative wicking bed solutions which require 80% less watering than top down methods, while producing at least 30% more yield.⁽¹⁾ It provides the optimal growing environment, saving you watering time. It can also capture and store rainwater and prevent root rot.

Square Planter

Use for these Situations

WaterUps Square Planter is ideal for:

- Inner city living, small balconies, courtyards
- Salad greens and herbs, like mint and chillis
- Vegetables like tomatoes, capsicum or aubergine
- Small fruit trees and shrubs like figs, blueberries and limes
- Enjoying the scent of a flowering plant close to an open window

Measurements / Materials

The WaterUps Square Planter measures 480 × 480 × 430 mm (external) and is made from 100% recycled UV-protected polypropylene.

It's available in three colours:

Monument, Light Grey and Latte.

Check website for any new colour additions.

Soil

To complete your WaterUps Square Planter, add 2 × 25L bags of quality potting mix and your plants.
